AT THE FALLS CITY

The Effect of the Great Cyclone Rapidly Disappearing.

Number of Killed Now Known to Be Seventy-Six.

Complete List as Furnished by the Coroner—The Work of Relief Systematically Proceeding—Poor People the Heaviest Losers in Jeffersonville, Ind. Great Damage Done in Tennessee.

LOUISVILLE, April 3.—The work of repairing the damage done by the cyclone is pressed forward energetically. Walls are going up and roofs reappearing on all sides. The work of clearing the streets entirely of wreckage was begun Tuesday.

Relief.

The work of relief is now proceeding systematically. A half-dozen clerks are kept busy taking the statements of those in need, another pays out the necessary sums of money, and still another records both the name of the applicant and the amount paid out. It is next to impossible for one family to draw twice and not be recorded. The name, address, amount of property destroyed, all are carefully filed in the blank lines of the application.

Nothing but absolute need is relieved, and that only for the present. Only a few were as large as \$20, and they were for burial expenses. The majority were \$3 and \$5 distributions.

Insurance.

It has been decided by the underwriters that where a building has been only partially destroyed the fire insurance will be allowed to stand if proper repairs are made. When buildings are totally destroyed the insurance is canceled, but premiums paid in advance are refunded.

While at work making repairs at the Falls City tobacco warehouse Monday night, Ernest O'Leary fell, receiving injuries which will probably prove fatal. An examination of the ruined district shows several buildings which withstood the greatest violence of the wind.

The "Fort Ne son" building at Eighth and Main was in the very center of the storm, but suffered little damage. It is one of the most substantial buildings in the city, its walls of brick and stone being unusually thick. Its cornice and roof were considerably damaged, and a big gap made in the top rear wall, but it suffered little enough to demonstrate the fact that the strongest building is the safest in great wind storms, and that it is possible to erect structures that will escape the most furious visitation ever known in this country.

In Jeffersonville.

Out of about eighty houses destroyed by the tornado in Jeffersonville the owners of four-fifths of this number are poor people, whose little homes were their only possessions. All the homeless ones have been given shelter by their more fortunate neighbors, but the situation over there has been much underestimated, and it is a mistake to suppose that no assistance is needed in the little city across the river. In the blocks between Market and Front and Mulberry nearly every home is ruined, and the inmates lost the most of their furniture.

Some of them succeeded in saving only the clothing they wore upon their backs. Since the terrible accident occurred Daniel Phipps has fed and given shelter to thirteen families. John Ferguson, grocer, has provided for an equal number.

A meeting of the Commercial club was held at the city hall Monday night, and speeches favoring the asking for outside assistance were made. Thus far subscriptions to the amount of only about \$250 have been sent in.

At Virgil Wright's—Thaddeus Mason, 410 West Chestnut.

The Previous Lists.

In the previous lists many of the victims' names were reported to the coroner twice, and several dead were reported under two names. One man was given three separate names in the list of killed, while an entire family of four persons was listed among the dead under two names. Many who were supposed to have perished, and were reckoned among the dead, have, since the excitement has abated, turned up safe.

There are hundreds of the most interesting and miraculous incidents connected with the tornado, showing the queerest sort of freaks of the wind.

A block of iron casting weighing over 150 pounds was blown into the second story of the Chesapeake, Ohio and Southwestern railway building near the Union depot. Nobody knows where it came from and the nearest building from which it could have come is nearly one hundred yards away.

Great sheets of tin roofing were dropped upon Dr. Barry's farm, near Turner's Station, forty miles from the city, on the Short Line.

In the ruins of a house on West Main street a clock was found clinging to the wall. It was a large office clock, but no one in the vicinity has ever seen it before and no one knows where it came from. It was badly broken, but the hands still pointed to 8:20 p. m.

A large slab of marble was found in a residence on West Madison street which was never there before. It will weigh over 100 pounds.

At Baird's drug store, on Market above Ninth, two bird cages with the birds were blown in through the skylight. The cages were not injured and the birds are as full of song as ever.

When the building occupied by Brand & Bethel, the tobacco men on Green street went to pieces, a portion of the frame work dropped through the roof of a little cottage just east of the factory. It consisted of a heavy timber, to which were mortised four upright pieces of timber. When this came through the cottage the family were sitting around the table in the dining room, and the four uprights simply pinned them in, but did not hurt them in the least. It was one of the most wonderful escapes yet heard of.

A LACK OF WATER.

The Stricken City Threatened With Further Misfortunes.

CINCINNATI, April 3.—The Times-Star's special Wednesday afternoon from Louisville said:

The danger of a water famine is becoming greater every day. There is only two days' supply left, and if the experiment to be made this afternoon fails the supply will be cut off from all consumers save the fire department. The result would be to close every factory, throw thousands of men out of employment, and, worst of all, poison the air with noxious gases from the sewers and waste pipes that would cause an epidemic of malarial diseases. Four fire engines have been sent to the pumping station, but these can do but little good.

Contributions to the relief fund continue to pour in. Including yesterday's appropriation of \$30,000 by the legislature there is now nearly \$150,000 on hand. This will meet all the wants.

Fayetteville, Tenn.

CHATTANOOGA, April 3.—A dispatch to The Times from Fayetteville, Tenn., gives the following authentic news from there of the ravages of the terrible tornado of last Friday night. The loss will aggregate \$250,000. Milton college and all the churches and 200 houses are in ruins and the people are homeless, destitute and suffering.

EMIN PASHA

Finally Decides to Enter the German Service.

He Abandons His Contemplated Return to Europe.

And Will Shortly Leave Bagamoyo With a Caravan for Victoria Nyanza—Seventy-Fifth Anniversary of the Birth of Prince Bismarck—John Ball and American Cattle—Cablegrams.

ZANZIBAR, April 3.—Emin Pasha has finally accepted Maj. Wissman's proposal to enter the German service in Africa at a salary of £1,000 per annum. He has abandoned his contemplated return to Europe, and will leave Bagamoyo by the middle of April with a large caravan and 200 Soudanese, under the command of German officers, for Victoria Nyanza. Emin's decision meets with strong disfavor in Zanzibar.

Bismarck.

BERLIN, April 3.—Tuesday was the seventy-fifth anniversary of the birthday of Prince Bismarck. The railway station at Friedrichsruhe was almost blocked by the enormous number of presents arriving for the prince.

During the day Prince Bismarck received numberless congratulatory telegrams. He spent the day quietly with his family. In the evening he was serenaded. After the procession Monday night the prince invited Herr Worman and other Hamburg visitors to his home. Herr Worman, in the course of a conversation, expressed his hope that the prince would not be altogether a stranger to politics and that he would still take part in the debates in the reichstag. To this Bismarck made an acquiescent reply.

The Hamburger Nachrichten says that Bismarck, referring to his departure from Berlin, said that at his age people did not make such a journey twice. According to the same authority, the ex-chancellor, referring to the Socialist strikes, said that they were not the worst danger, for they would pass over. The saddest possibility for workers was the chance that the strikes would so dishearten the employers that they would lose all desire to continue business.

Eighteen hundred birthday greetings have been sent to Prince Bismarck. Five train loads of admirers visited Bismarck during the day. Emperor William sent his portrait.

Another Ocean Race.

LIVERPOOL, April 3.—Large crowds gathered at the pier of the White Star Steamship company, Wednesday, to witness the departure of the magnificent new ocean racer, the "Majestic," on her maiden trip to America. She carried a full complement of passengers. Among them are Mr. Adams, the United States minister to Brazil; Alexander Delmar, Ernest Inman and W. M. Mackay.

The steamship was gaily decorated with flags and bunting, and as she steamed down the Mersey she was enthusiastically cheered by the crowds which lined the docks, while the various steam craft saluted her with the tooting of whistles.

Do Not Want American Cattle.

LONDON, April 3.—A meeting of the associated chamber of agriculture was held Tuesday. A resolution was adopted declaring that a relaxation of the regulations prohibiting the importation into Great Britain of American store cattle would be extremely dangerous. The speakers denounced Mr. Frewen and others who are active in the movement to remove the prohibition, and declared that they are fomenting the agitation in order to obtain a better market for their own stock.

Anti-Slavery.

BRUSSELS, April 3.—The maritime committee of the anti-slavery conference has made a long report, which shows that all difficulties have been surmounted and that an agreement has been established on every point. If the conference adopts the report, the repression of the slave traffic by sea will henceforth be under a complete code respecting the views of various powers, the efficacy of which cannot fail to be felt.

Russian Universities Closed.

St. PETERSBURG, April 3.—The University of St. Petersburg was closed Wednesday and 200 students were refused admission. The Technological college was also closed and 300 students were refused admission. The action of the authorities in closing the institutions named is due to the discovery of a conspiracy among the students.

A CAVE IN A SAND BANK.

The Roof Falls In and Six Boys Are Suffocated.

VERNON, Tex., April 3.—Monday afternoon the three sons of R. B. Barkersville, aged 15, 13 and 11, and the three boys of Mr. Wommack, aged 15, 13 and 12, went to the sand bank at the south end of the Peace river bridge, where the boys had dug a cave in the sand. At night they did not return home, and Tuesday morning Mrs. Wommack went to look for her children.

Upon reaching the river she discovered the feet of a child protruding from the sand, the roof having fallen in upon them. She gave the alarm, and hundreds of men hastened to the place, and the work of rescue began. Soon the sand was removed and the bodies were taken out, but life had been extinct for hours.

Great Day at St. Augustine.

St. AUGUSTINE, Fla., April 3.—The northern visitors and the residents celebrated the anniversary of Ponce de Leon's landing in Florida by a brilliant festival Tuesday. There were lotteries, masquerades, salutes from the fort, music and dancing.

OCEAN PATROL SERVICE.

Measure for the Saving of Human Life in Case of Accident to Atlantic Steamers.

WASHINGTON, April 3.—Representative Turner, of New York, Tuesday introduced in the house a preamble and joint resolution for the better protection of human life on the Atlantic ocean. The preamble to the resolution calls attention to the recent accident to the City of Paris, which jeopardized the lives of more than 1,000 persons and made it apparent that some measures should be taken looking to the better protection of human life and property on the ocean highways; says the rivalry between competing lines of steamships is so keen that considerations of safety and even of humanity are often lost sight of in the efforts to reduce the time occupied in transit across the Atlantic; declares that the laws of certain foreign countries governing vessels carrying mails compel them to make all possible speed, having regard solely for the consideration of landing the mails so carried at the earliest possible moment, and the temptation to the commanders of such vessels are very great to sacrifice all considerations of convenience, safety, and even of humanity, to that of speed; holds that better protection to human life and property can be afforded by a system of ocean patrol than by any other means, and that any such system of ocean patrol must necessarily be maintained by nations rather than by private enterprise, owing to the magnitude of the undertaking and the expense necessary to the maintenance of an official service; and that the co-operation of the several nations chiefly interested in the trans-Atlantic travel is necessary to the establishment and maintenance of an ocean patrol service, and finally concludes as follows:

WHEREAS, The nations chiefly interested in Atlantic travel are the United States, England, France, Italy and Norway and Sweden; therefore, be it

RESOLVED, By the senate and house of representatives that the president be, and he hereby is, requested to communicate, through the secretary of state or other proper channel, with the foreign powers so interested in trans-Atlantic travel, with a view to secure their co-operation in the establishment of an efficient system of ocean patrol, which shall include the employment for the said service of war vessels, or such other suitable vessels as may be available for the purpose.

ELECTION IN KANSAS.

Women at the Polls—They Carry the Day in Several Places.

TOPEKA, Kan., April 3.—The election Tuesday was unusually exciting in the cities from the fact that the women exercised the right of franchise in voting for city officers and members of school boards.

At Manhattan the women were successful again over three opposition tickets.

At Leavenworth all the women candidates were defeated as less than half of the 600 registered voted.

At Emporia Mrs. Jackson was re-elected to the school board on the proposition to reduce salaries of teachers.

At Topeka about 750 women had registered, but they decided to put no candidate in the field.

At Atchison the Republicans had endorsed a woman candidate and she was elected.

At Salina the opponents of woman suffrage ran a colored candidate, who defeated the white woman nominee.

At Wellington the three women candidates were defeated, while at Hiawatha the three women candidates went in a whirl to the school board.

The elections, on a whole, were not as successful as the advocates of woman suffrage expected.

MINNESOTA FARMERS

Very Indignant Over a Decision of the United States Supreme Court.

St. PAUL, Minn., April 3.—The indignation of the farmers of Minnesota has risen to white heat over the decision of the United States supreme court in the now famous Granger cases, in which the Minnesota railway commission was practically laid on the shelf.

The executive committee of the State Farmers' Alliance, representing over 30,000 tillers of the soil, met here Tuesday and passed a set of resolutions denunciatory of the supreme court, and asking all the Farmers' Alliances in the country to join with them in a National convention looking to the abolition of the supreme court.

BURGULARS CAPTURED.

Two Professionals Taken In at Mt. Carroll, Ill.—A Third Thief.

Mt. CARROLL, Ill., April 3.—Three professional cracksmen forced an entrance into J. N. Smith's saloon Tuesday morning, blew open the safe and got away with nearly \$1,000. They were traced to the depot, where they purchased tickets for Foreston. Two of the men left the train at Kittredge and tried to double on their tracks, but were captured on the train between here and Savannah. They carried a full kit of tools. The other burglar is supposed to have escaped to Iowa on a freight train.

Gas Explosion in a Coal Mine.

WILKESBARRE, Pa., April 3.—An explosion of gas occurred Wednesday morning in No. 4 shaft at Nanticoke. At noon seven men had been brought out seriously burned and one dead. There were four other men still in the shaft, and it was believed that they had been suffocated. The names of the victims were not learned.

Banker Murdered and Robbed.

NEW YORK, April 3.—A special to The Herald from Dublin, Va., says: J. H. Caddall, county treasurer and president of the Pulaski National bank, was murdered and robbed about 4:30 Tuesday afternoon between the county seat and his home. There is no clue to the murderers.
